We’ve got the whole world, in our hands
We’ve got the whole world, in our hands
We’ve got the whole world in our hands
We’ve got the whole world in our hands
We should recycle now - all that we can
Reduce, Reuse, Recycle - all that we can
We should recycle now - all that we can
We’ve got the whole world in our hands
Be kind to the plants and animals - of our land
Be kind to the plants and animals - of our land
Be kind to the plants and animals - of our land
We’ve got the whole world in our hands
Join hands with sisters and brothers - throughout the land
Join hands with sisters and brothers - throughout the land
Join hands with sisters and brothers - throughout the land
We’ve got the whole world in our hands
Dream your bright dream - then do all that you can
Dream your bright dream - then do all that you can
Dream your bright dream - then do all that you can
We’ve got the whole world in our hands
We’ve got the whole world, in our hands
We’ve got the whole world, in our hands
We’ve got the whole world, in our hands
We’ve got the whole world in our hands

To love and care for the earth means that we will be able to enjoy it for generations. This song is about making peaceful and "earth friendly" choices now to insure a brighter future for all humankind in the years to come.
